Appendix A
Contributors and Reviewers

The following persons contributed to the report by reviewing chapters or otherwise assisting in its preparation. Their help is greatly appreciated.

General Spence Armstrong, National Aeronautics and Space Administration
Stephanie Bianchi, National Science Foundation
William Blanpied, National Science Foundation, Tokyo Office
Erich Bloch, Washington Advisory Group
Marjory Blumenthal, National Research Council
Rolf Blank, Council of Chief State School Officers
David Boesel, U.S. Department of Education
Mark Boroush, U.S. Department of Commerce
Myles Boylan, National Science Foundation
Karen Bradley, Western Washington University

Rear Admiral Jay Cohen, Office of Naval Research
Angelo Collins, Knowles Science Teaching Foundation
Jere Confrey, University of Texas, Austin

General John Dailey, National Aeronautics and Space Administration
Thomas Duffy, ORC Macro

Karolyn Eisenstein, National Science Foundation

Irwin Feller, Pennsylvania State University
Mike Finn, Oak Ridge Institute for Science and Education
Jane Fountain, Harvard University
Susan Fuhrman, University of Pennsylvania

Anne-Marie Gaillard, Consultant
Fred Gault, Statistics Canada

Kim Hamilton, CHI Research, Inc.
Jim Hartz, Vanderbilt University
Peter Henderson, National Research Council
Diana Hicks, CHI Research, Inc.
John Hocker, Foundation for the National Medals of Science and Technology
Jim Hoskins, Wirthlin Worldwide
Ray Hyman, University of Oregon, emeritus

Paul W. Jennings, National Science Foundation

Brian Kahin, University of Maryland
Lawrence Kerr, Office of Management and Budget
Rob Kling, University of Indiana
Paula Knepper, U.S. Department of Education
Kei Koizumi, American Association for the Advancement of Science
Richard Kolar, Mogee Research and Analysis Associates
Carlos Kruytbosch, National Science Foundation, retired
Richard Kulka, Research Triangle Institute

Cynthia Lanius, Rice University
Todd Laporte, George Mason University
Charles F. Larson, Industrial Research Institute, retired

Judy Lee, Blocker Middle School
Josh Lerner, Harvard University
Bruce Lewenstein, Cornell University
James H. Lightbourne, National Science Foundation
Al Link, University of North Carolina, Greensboro
Robert Litan, Brookings Institution

Jane Maienschein, Arizona State University
Shirley Malcom, American Association for the Advancement of Science
Dominique Martin-Rovet, CNRS, National Committee for Scientific Research
Mary Ellen Mogee, Mogee Research and Analysis Associates
Robert P. Morgan, Washington University, retired
Seth Muzzy, ORC Macro

Francis Narin, CHI Research, Inc.
Matt Nisbet, Cornell University

Willie Pearson, Jr., Georgia Institute of Technology
Pierre Perrolle, National Science Foundation
Laura Petonito, Office of Naval Research
Andrew Porter, University of Wisconsin
Susanna Priest, Texas A&M University

Senta Raizen, National Center for Improving Science Education
Lauren Resnick, University of Pennsylvania

David Sanchez, Texas A&M University
Victor A. Santiago, National Science Foundation
Kate Scantlebury, National Science Foundation
Bill Schmidt, Michigan State University
Roland W. Schmitt, Renselaer Polytechnic Institute, emeritus
Susan Sclafani, U.S. Department of Education
Ruta Sevo, National Science Foundation
Erwan Seznec, CNRS, National Committee for Scientific Research
Richard J. Shavelson, Stanford University
Kazuko Shinohara, National Science Foundation, Tokyo Office
Elizabeth Stage, University of California
Paula Stephan, Georgia State University
Judith Sunley, National Science Foundation
Larry Suter, National Science Foundation

Judith Tanur, State University of New York, Stony Brook
Greg Tassey, U.S. Department of Commerce
Al Teich, American Association for the Advancement of Science
Eleanor Thomas, National Science Foundation, retired
John Thompson, U.S. Census Bureau

David Trinkle, Office of Management and Budget

Nicholas S. Vonortas, George Washington University

Alan Wagner, Organization for Economic Cooperation and
  Development
Linda Warden, National Science Foundation
Kenneth Whang, National Science Foundation
Mary Woolley, Research!America
Andrew Wyckoff, Organization for Economic Cooperation
  and Development
